Project Status report

Name:	Aryan Chandra
Community (UN SD goal):	Quality Education – 4, Responsible Consumption and Production – 12, Climate Action - 13
MVP #	2
Sprint cycle dates:	15rd November 2023 – 5th December 2023

Project Name	EcoExplorers
Blurb	EcoExplorers is a mobile application aimed at education children about environmental sustainability and their carbon footprint. The app enables kids to calculate their carbon footprint based on various daily activities and learn about the SDGs related to Quality Education – 4, Responsible Consumption and Production – 12, Climate Action – 13.
For Week Ending	5th December 2023
Project Status	**Green**
Status Description	The status is set to green because what was proposed for MVP3 has been completed.

Activities—During the past sprint cycle

Demo of MVP 3 - https://youtu.be/nxofuAlOMoI
- Export feature added.

Project Issues

Issue exporting as image. However this was a simple fix as I just exported as JSON but made changes to the readability so children would be able to understand properly.

Project Changes

No changes.

Activities—Planned for Next Week

No activities planned as the class has been finished.

Reflection

Do you feel "on track"?
- Yes, I have managed to achieve exactly that I had planned for MVP 3.

What progress do you particularly feel good (great) about?
- The fact that I managed to get all the MVPs completed, and in time.

What barriers (if any) do you feel is/are a current impediment to success?
- No barriers.

What help (if any) do you require to move positively forward?
- None is required as everything is now due and to be completed.

What questions or concerns do you have (if any)?
- None.
